Using Library Resources Off-Campus

All RVC credit students, full and part-time faculty, and full and part-time staff and administrators may use the electronic information resources of the Library via the Internet. These are available 24 hours a day, every day.

Resources available include:
- Databases of magazine and journal articles, many of which are full-text.
- 10,000 e-books, including Reference books found in the Library Online Catalog.

How does this work?
- Use the library website: http://library.rvc.cc.il.us
- The Online Catalog link is used to find materials owned by Rock Valley College Library.
- Also find: Electronic books [They have the phrase: Location: Electronic Books in the information about the book.]
- The Electronic Databases link is used to find magazine and journal articles and reference books in electronic form.
- Using electronic copies emailed to yourself may require logging into the database which provided the full-text content.

When you are researching from off-campus, you will be asked to login using your last name and student ID. Once you have logged in, you will be able to search for information on your topic.
